

100 kWh energy storage battery products

100 kWh energy storage battery products

ECE One-stop outdoor solar battery storage cabinet is a beautifully designed turnkey solution for energy storage system. The commercial solar battery storage system is loaded with cell modules, PCS, photovoltaic controller (MPPT) (optional), EMS management system, fire protection system, temperature control system and monitoring system. As a leading solar energy storage system factory, ECE Energy ensures top-quality components and innovative design. The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance. The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

Integrated Solar+ESS design, suitable for access of PV.

New energy vehicles use PV clean electricity as priority.

Off-grid operation can ensure that chargers will work even when there is power outage.

Power transfer and peak-load shifting to achieve electricity cost saving

On-grid/off-grid switching in milliseconds to realize noninductive shifting between utility grid and PV on wind energy storage systems.

Suitable for remote villages, farms, etc. where no power deployment or lack of power

Solar give priority to supplying power to the load and charging BESS, when insufficient, the BESS will provide power to the load.

Flexibly meet the access of other backup power sources such as diesel generators and gas generators.

Patented safety design, auto motive grade, high-performance LiFePo4 battery, safe and reliable.

Suitable for direct access of PV modules and boost green buildings development.

Peak and valley operation, effectively reducing electricity bills and operating expenses.
