This battery is packed with features to ensure optimal performance and longevity. With a built-in 20A BMS, it is protected from overcharging, over-discharging, over-current, and short circuiting.

The advanced lithium iron technology provides higher energy density, stable performance, and fast charging and discharging.

Unlike traditional lead-acid batteries, this lithium battery has an exceptional lifespan of over 5000 cycles, reducing the need for frequent replacements and minimizing overall cost.

It is 30% lighter than lead-acid batteries, making it easy to carry. With its safety certifications and environmentally friendly composition, the Vatrer Power 12V 20AH LiFePO4 Lithium Battery is an excellent choice for solar power, small UPS systems, power wheels, gate openers, fish finders, and outdoor camping.

Enjoy peace of mind with a 2-year warranty and dedicated customer support.

When it comes to finding a reliable power source, the Vatrer Power 12V 20AH LiFePO4 Lithium Battery by Vatrer Power should be at the top of your list. This cutting-edge battery offers a multitude of features and benefits that make it a standout choice for a variety of applications.

With built-in 20A BMS (Battery Management System), this battery is equipped with extensive protection against overcharge, over-discharge, over-current, and short-circuiting. This ensures the battery's longevity and performance remain exceptional, no matter the conditions.

Plus, its low self-discharge rate and high temperature cutting off feature provide added safety and efficiency. Utilizing advanced lithium iron technology, this battery boasts Automotive Grade LiFePO4 Cells. This means higher energy density, greater stability, and outstanding power output.

With fast charging and discharging capabilities, this battery even has a charging efficiency of up to 100%. Say goodbye to memory effect, as this battery can be used immediately after charging, regardless of its state.

It also supports expansion for up to 4 series & 4 parallel, making it suitable for electric energy storage. Not only is this battery powerful, but it also offers exceptional longevity. With 5000+ cycles compared to the 300~500 cycles of lead acid batteries, the LiFePO4 lithium iron battery is built to last.

12v 20ah lithium battery reviews

Its service life is 8 to 10 times longer than standard lead-acid batteries, helping you save on replacement costs. Additionally, it weighs 30% lighter than its lead-acid counterparts, making it easier to carry.
