16v lithium lifepo4 marine batteries

Batteries - PowerHouse Lithium - PHL

Warrantied replacement cost is based on current MSRP on all batteries over the 5 ...

Products - PowerHouse Lithium - PHL

Marine batteries are essential for powering various boat systems, from starting the engine to running electronics. Traditionally, lead-acid batteries have been the go-to option. However, advancements in technology have introduced lithium-ion batteries as a more efficient alternative.

A 16v lithium marine battery offers several advantages over the standard 12v options. These batteries provide better power delivery, increased efficiency, and enhanced performance, making them ideal for high-demand marine applications.

Modern boats have sophisticated electronic systems that require reliable power sources. 16v lithium deep cycle batteries are perfectly suited to meet these demands, offering stable and efficient power delivery for everything from navigation systems to fish finders.

No matter your needs, PowerHouse Lithium is here to ensure you can make the most of your time on the water.

Tired of poor performance at the end of the day? Powerhouse lithium has solved those issues with a clean dedicated 16v power system for all your electronics. Fish all day with no reduced voltage drops. With our battery install kit fish with confidence that your equipment will stay powered up even if a failure was to happen. Clarity is improved, signal strength increased, amperage load is reduced by 20%, thus giving you longer run times on 16V system.

We are the first and only company to come out with the next big thing to enhance your electronics. We have designed from the ground up a BMS system that is geared for the use with marine electronics.

ATTENTION: We No Longer Ship to PO Boxes.

Please have Alternate Address to receive Products Ordered.
