

36 volt 10 ah battery

36 volt 10 ah battery

Excellent Safety Performance

High Temperature Resistance

Minimizing wasted packaging space.

Many types for your selection

Product Name: 36V 10Ah Lithium Battery

Type: Lithium battery pack Rated Capacity: 10Ah Rated Voltage: 36V Max. Charge Current: 15A Max. Discharge Current: 30A or customized Internal Resistance: $\leq 70\text{m}\Omega$ Dimension (L*W*H): 300*80*40mm or customized Weight: 1.5KG Cycle Life: 500(25°C)

Some common applications for a 36V 10Ah Lithium battery include:

The 36V 10Ah Rechargeable Lithium battery pack is highly sought after in various fields of application. At DNK, we have crafted a wide range of battery packs to cater to your needs. Our batteries are carefully designed to power system devices that require a 36V DC power supply. Made with advanced lithium-ion technology, this battery provides superior performance and longer lifespan compared to traditional lead-acid batteries. Its lightweight and compact design make it easy to install and transport, while its advanced safety features ensure reliable and secure operation.

1. Don't use or leave the battery under the blazing sun (or in heated car by sunshine)

The battery may smoke, heat or flame. And also, it might cause the deterioration of battery's characteristics or cycle life.

Please read the manual before using the battery and let it keep after reading. And also, please read it necessary.

Please read the manual of specific charger about charging method.
