The REDARC 200W Portable Folding Solar Panel features highly efficient Monocrystalline cells. With an adjustable lightweight leg design, the panels can be conveniently angled towards the sun.

The REDARC 200W Monocrystalline Solar Panel is a standard monocrystalline flat solar panel designed to capture solar energy to keep batteries charged throughout the day.

The REDARC 180W Monocrystalline Solar Panel is a standard monocrystalline flat solar panel designed to capture solar energy to keep batteries charged throughout the day.

The REDARC 120W Monocrystalline Solar Panel is a standard monocrystalline flat solar panel designed to capture solar energy to keep batteries charged throughout the day.

The REDARC 80W Monocrystalline Solar Panel is a standard monocrystalline flat solar panel designed to capture solar energy to keep batteries charged throughout the day.

The REDARC 60W Monocrystalline Solar Panel is a standard monocrystalline flat panel designed to capture solar energy to keep batteries charged throughout the day.

REDARC's camping solar solutions include high-quality mono crystalline fixed solar panels designed to be attached to the top of your caravan, RV or camper-trailer. Manufactured with Australia's extreme weather and harsh conditions in mind, our fixed solar panels are strong and durable. Choose from a range of solar panel sizes and output power resources to suit your vehicle and charging requirements.

If you're looking for more flexibility with your solar solutions, then REDARC's selection of portable solar panels will do the job. An essential in camping gear, these 4WD solar panels feature a double channel aluminium frame, so you can be rest assured that they won't ever flex or twist. Another compact and easy to use solar solution, is REDARC's range of solar blankets. These folding solar panels feature solar cells attached to a flexible canvas backing, and can be easily folded up and packed away.
