

# Agile octopus battery storage

Agile octopus battery storage

Their GridFLEX technology will automatically charge up and discharge ...

Modern slavery statement.

In order to provide you with the latest digital energy web services you need to use the latest and greatest web browsers.

Update your browser for a better web experience, here and all over the internet.

Your Octopus tariff gives you access to half-hourly energy prices. These prices are tied to wholesale prices and updated daily.

When wholesale prices drop, so do your bills. If, then, you can shift your daily electricity use outside of peak times, you can save more.

Enter your GivEnergy battery storage system. Your home battery has a direct API link to Octopus and energy prices.

This seamless integration ensures the smartest, cheapest management of the charge and discharge cycle.

Your battery takes advantage of cheap rates automatically. No need for you to lift a finger or manually tell the system what to do.
