The AlphaESS SMILE-G3 10.1kWh Battery battery is designed for use with the Smile G3 system, and up to six (6) of this battery can be installed in parallel to give a capacity of 60.6kWh. With its modular design, the "plug & play" Battery has been designed to be aesthetically pleasing when used with the Smile G3 Hybrid Inverter.

Warranty: As per the AlphaESS Warranty document "It is required that all systems have internet connection for monitoring. Systems that are not connected to the internet will have their warranty reduced to 3 years"

Up to 6 of these 10.1kWh batteries can be connected to the Smile G3 Hybrid Inverter, giving a total battery storage capacity of 60.6kWh. Accounting for the 95% DoD, this is a usable capacity of 57.57kWh which gives this system lots of versatility.

Looking for help on your solar and battery storage journey? Please contact us for impartial advice.

More and more homeowners are going solar to reduce their electricity bills and protect the environment for future generations. A battery system allows you to go even further by storing surplus solar generation for use at any time, increasing your savings and reducing your reliance on the grid.

Datasheet for the AlphaESS SMILE-G3 10.1kWh Battery User Manual for the Alpha Smile G3 Warranty Document for AlphaESS

Established in 2012, Alpha ESS specialises in advanced battery storage products and intelligent energy management solutions for both residential and commercial applications.

AlphaESS offers homeowners a comprehensive range of energy storage products with various features and capacity options to meet the needs of a wide range of building types and demand profiles.

When combined with the Smile G3 Inverter, the AlphaESS SMILE-G3 10.1kWh Battery has been designed to work seamlessly with smart energy tariffs. The first energy supplier to offer such a tariff is Octopus Energy, however this AlphaESS battery system works perfectly with any other energy provider.

The Smile G3 package features an intelligent modular design and 24/7 monitoring both online and via the AlphaESS app.

With a mammoth 10.1kWh capacity per battery, this system can cater for residential systems and for
