With its modular design, the "plug & play" AlphaESS 5.7kWh Parallel Battery has been designed to be aesthetically pleasing when used with Smile5 Hybrid Inverter.

Warranty: As per the AlphaESS Warranty document "It is required that all systems have internet connection for monitoring. Systems that are not connected to the internet will have their warranty reduced to 3 years"

Up to 6 of these 5.7kWh batteries can be connected to the Smile5 Hybrid Inverter, giving a total battery storage capacity of 34.2kWh. Accounting for the 96% DoD, this is a usable capacity of 32.83kWh.

Have a large scale/commercial project? Please contact us for advice and pricing!

When combined with a AlphaESS battery, the AlphaESS Smile5 5.0kW Hybrid Inverter has been designed to work seamlessly with smart energy tariffs. The first energy supplier to offer such a tariff is Octopus Energy, however the AlphaESS battery system works perfectly with any other energy provider.
