Same great performance as our standard 60AH battery but with more advanced waterproof protection! This battery can handle being submerged for a short period of time if your kayak would happen to flip or take on water. The best portable battery for small boat electronics and Kayak trolling motors. This 14.35lb battery is one of the most advanced, smallest, and light weight batteries in the industry today! With 60AH usable capacity, you will not find a better battery!

Charging: All Amped Outdoors Batteries should be charged with our LiFePO4 approved chargers. SLA and other lithium chargers may not fully charge a LiFePO4 battery or recognize the battery when the BMS trips.
