This article showcases our top picks for the best sustainability companies in the Netherlands. These startups and scale-ups are taking a variety of approaches to innovating the sustainability industry, but are all exceptional companies well worth a follow.

Innovation is one of the key pillars of success, and there is no debate in this. Understanding the importance of innovation, several Dutch startups have come up with unique technologies to resolve the major challenges faced by people. If we have to rate them based on the innovation they have brought in, then a majority of them have turned successful and are operating in the market currently.

This is where KvK Innovation Top 100; an initiative that operates with the mission to showcase what SMEs are capable of in the Netherlands; comes to play. It is an opportunity for startups to increase their visibility. This initiative is meant for innovative Dutch entrepreneurs running small and medium-sized businesses.

The Kamer van Koophandel (KvK) is the Chamber of Commerce in the Netherlands. According to its website, it is an independent administrative body that informs, advises and supports businesses and manages the Commercial Register. "Our mission is to make life easier for you as an entrepreneur," it says. The daily operations of the KvK are supervised by the four members of the Board of Directors (Raad van Bestuur or RvB in Dutch).

by Dutch small and medium-sized businesses. Here are the 15 Amsterdam-based startups that made it to the list.

Founder/s: Yves Prevoo Founded year: 2017 Funding: NA

Easee has developed an online eye test that you can do at home easily without having to leave the house. This eye test is as accurate as when you have your eyes tested by an optician. As per the company, its mission is to make complete and accurate spectacles for everyone.

"With a laptop, a smartphone and three meters of space, you can now test your eyes at home. This innovation reduces waiting times for eye care. Costs are saved, quality is increased," says KVK.
