Store Batteries with Confidence. There's a reason CellBlock(R) is Trusted by the Safest Brands on Earth(TM)

The dangers of improperly storing lithium-ion batteries have been well-documented over the past decade. Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment.

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and fire-suppression, to keep your assets and personnel safe from hazardous lithium-ion battery fires.

Each CellBlock Battery Storage Cabinet contains our proprietary fire extinguishing agent, CellBlockEX(R). CellBlockEX is a proven dry fire-suppressant capable of halting thermal propagation in devices, batteries, or cells. CellBlockEX is:

Our fire-suppression media delivery system was designed to deploy automatically in the presence of flames without relying on mechanical or electrical systems. This means it works every time.

For quote requests, please provide an address. Quotes cannot be provided without a complete address.

CellBlock FCS provides modern solutions for a lithium-powered world. Stored energy is increasingly present in our lives. CellBlock strives to match the speed of emerging technology with engineered products that address safety concerns at every level -- from development to deployment.

CellBlock FCS, LLC 234 Northeast Road, Unit 5 Standish, ME 04084
