

Battery lithium 48v

Battery lithium 48v

Buy with confidence with our competitive, no-nonsense 11-year warranty.

Ionic uses the best cells so your battery lasts longer and performs better.

Monitor your charge at any time from our user-friendly Ionic mobile app.

Ionic batteries are 100% compatible and safe with Yamaha and Mercury motors.

Our Lithium LiFePO4 batteries bring you revolutionary technology ahead of its time. As the creators of the Ionic brand, we combine powerful lithium, Grade A battery cells, and Bluetooth monitoring for a battery that lasts longer, works harder and plays smarter. With LithiumHub, you're guaranteed 100% US-based support, plus a competitive, no-nonsense 11-year warranty. Explore our collection today to experience the latest in marine battery technology.

Consider using a GC2 48 Volt Lithium battery to power your tiny home. Storing more energy from your trusted source of renewable energy, a 48V battery can help you lessen your dependence on your designated power grid and lower your energy bills more than ever.

Save space while providing generous amounts of backup power for commercial establishments! With 48 volt lithium batteries, you'll enjoy reduced maintenance and more dependability compared to lead-acid batteries. Plus you get to minimize your carbon footprint.

With 48V Lithium Batteries, go from 8-12 miles on a single charge! And they're not just for high-performance golf carts-- these batteries are compatible with all 48V golf carts. With these batteries, your golf carts will not only last longer on the field. Thanks to the minimal energy loss, they can also push for maximum acceleration. Outlast others on the course with your 48V-powered golf cart.

Space and weight are important considerations when out on your fishing boat, which is why the energy-packed 48 volt battery may fit the bill for powering large trolling motors or certain engines. Built 70% lighter than lead acid batteries, a more compact design, and with a high discharge current, 48V lithium batteries ensure extended fun out on the lake.

With a far greater lifespan than traditional batteries, Lithium batteries don't need to be replaced as frequently. In fact, they can last from 2x to 4x- even up to 10x the lifespan of a traditional, lead-acid battery!

Lithium batteries receive a charge about 5x faster than lead-acid batteries. This means less time wasted while waiting for your batteries to charge - use your time where it matters.

With the help of Bluetooth technology, you'll always be up-to-date with the status of your battery. Know your battery's exact charge, temperature, and other important metrics wherever, whenever. You can even receive notifications during critical moments.
