

Battery management systems cape town

Battery Management has become a sophisticated and integral part of off-grid ...

„??,????,?,? ...

Potensa was established in 2004, offering 65 years of combined expertise in creating customised energy solutions to a broad range of customers across Africa, the Middle East and Europe. Our team is highly skilled in energy advisory and aligned services, working closely with our customers to find a solution that is tailor-made to suit their unique and specific requirements.

Our expertise extends to all major chemical systems with products exported throughout the globe. At Potensa, we represent some of the world's leading battery brands in Africa. Our success lies in the combination of an outstanding product with an accomplished expert engineering team supported by an exceptional operational team. Our focus is custom battery pack design, battery pack assembly and advisory services which create specialised products and services to our customers.

At Potensa, our core function is to provide innovative customised energy solutions mainly for highly reliable industrial applications. We have pioneered our approach to working with our customer to establish a tailor-made solution to meet their needs, ensuring specifications are adhered to and every intricate detail is covered.

Battery Management Systems (BMS) is often referred to as the "brain" of the battery, primarily because it is responsible for the safety, efficiency, and longevity of Lithium-ion batteries.

The ATEX directives consists of two EU directives describing the minimum safety requirements of the workplace and equipment used in explosive atmosphere.

The ATEX mark aims at testing and certifying explosion-proof equipment.

At Potensa, we can assist you with intrinsic safety design and assisted ATEX approval. We are competitive and reliable. Most importantly, safety is always the at the heart of our planning and implementation in product design and implementation.

We can offer you guidance on necessities and aspects that are essential to obtain ATEX Approval and its requirements for equipment specifically in hazardous areas.

At Potensa, we offer an extensive range of Consumables that are plug and play as stand-alone items. We have an online Shop for you to utilise and source specific consumable items that you may be seeking.

Battery management systems cape town

We have many imported and specialised consumables that are available for use in a multitude of equipment. Our store has many components that cannot easily be sourced locally and furthermore are used in specific applications or specialised equipment.
