

Battery recycling united kingdom

You should only apply for approval if your business is operational or is ready to begin operations as soon as the approval is granted. Please note that you cannot treat or export automotive or industrial batteries without approval being granted.

You must follow extra rules if you manage waste batteries, including collection, treatment, recycling and export. These are in addition to your duty of care and hazardous waste regulation requirements.

The rules are different for waste portable, industrial and automotive batteries.

Evidence notes are proof of treatment, recycling or export of portable waste batteries by an ABTO or ABE.

It's illegal to send waste industrial or vehicle and other automotive batteries for incineration or to landfill.

You must be an approved or appropriate person to apply for approval and submit data returns.

See the guidance on what constitutes an approved or appropriate person.

Use the delegation of approved/appropriate person form if you want to delegate your function to another person. Sign the form and send it to your environmental regulator.

Apply for approval on the National Packaging Waste Database (NPWD).

Once approved you must comply with the conditions of approval.

To apply for approval you must have some form of UK presence; an office, a site or UK employees.

Once approved you must comply with the conditions of the approval.
