The Premium LiFePO4 Solar Generator

A whopping 5,376 LiFePO4 battery. Stores more energy to keep you powered up until the sun shines again. Featuring rectangular cell geometry.

Solar Charging capacity is the ultimate limit in the energy production capability. The Apollo's is an incredible 4.4 kW, the fastest in any portable solar generator. AC Charging Speed is also blazing fast, for when the grid's available.

Combine up to 12 Apollo units for 36 kW continuous / 72 kW surge output and 65 kWh of LiFePO4 storage. Add up to 10 Expansion Batteries to your multi-unit system for a maximum of 118.3 kWh of LiFePO4 storage. Add up to 5 Expansion Batteries to a single Apollo for 32.3 kWh of total storage. With this unprecedented expandability, you'll never be limited. If you're not sure how much you need, don't worry -- start small and you can always add on later.

A wide-variety of AC and DC inputs and outputs for powering a range of devices and charging from different sources.
