

Battery storage 65 kWh

Battery storage 65 kWh

Discover Aggreko rental battery & energy storage systems & solutions, including ...

,?,?:,?,?,?,...

Our plug and play battery energy storage solutions are designed to deliver the ultimate in performance efficiency. What makes our energy storage unique is the quality of every component, based on our in-depth understanding of what you need to achieve.

Expertly manufactured to ensure every component delivers optimal performance, our solutions provide dependable, consistent power. All while reducing your operational costs and shrinking your carbon footprint.

Whether you're looking for ways to power a microgrid, add reliability to a hybrid system, or optimize your operations through smart energy management, we'll provide the ideal energy storage system for you.

Get in Touch With Our Energy Storage Experts

Energy, power, HVAC and oil-free rental solutions

Safety, reliability and efficiency – without compromise. That's what you can depend on at all times from our innovative and sustainable energy storage systems. Our systems prove their performance capacity every day in more than 5,000 projects across the globe. We are driving forward the energy transition together, protecting the environment and your budget.

From 10 kWh to 30 MWh outputs, connected to low or high voltage, on-grid or off-grid, in combination with solar, wind, hydro or combined heat and power sources – our broad product portfolio covers the full range of applications and can be individually adapted to your requirements. State-of-the-art prismatic lithium battery cells from Samsung SDI combined with our patented and TÜV-certified Active Battery Optimizer smart cell control system form the core of our storage systems.

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg.

Aggreko, a UK-based mobile power and cooling solutions supplier, has released a new line of 30 kVA and 60 kVA battery storage modules. The fully integrated systems are developed for commercial and industrial energy storage applications.

Battery storage 65 kWh

Aggreko is offering fully integrated battery energy storage solutions under flexible rental contracts.
