Select your Interstate Battery Distributor in the Product Search Bar.

Today's vehicle electronic systems depend upon a strong battery. Both extreme heat and cold can affect a battery's performance. Don't get caught with a battery that won't start your vehicle. Test your battery in the fall and spring to be ready for whatever mother nature will throw at it. We can test your battery for free, in-store or while its still in your vehicle. See store staff for more details.

Battery Testing at PartSource includes:

> Visual inspection of battery case and terminals

> Result status on whether to charge/replace the tested battery or if it's good to keep going

*Battery testing is only available at participating PartSource locations. Applies only to standard vehicle and marine batteries. Does not apply to oversized vehicles. Subject to availability of store staff. See in-store for details.

Call 250-382-2833 or fill out our form online.

Test your vehicle Eco Knowledge.
