Berne solar energy companies

At SunPower by New York State Solar Farm, our Albany County solar panels specialists can hook you up with the technology you need to harness the world's most powerful and reliable source of energy, no matter where you live up in Northeast New York.

Locations within Albany County we serve include:

Solar power is getting more popular as the years go on - thankfully - and you will probably have your choices of solar power companies to help you with your upcoming project. We would like to assure you that we should be your first choice due to our extensive history and client testimonials.

To help you come to the decision to install solar panels on your home or business, we use flexible financing plans, as well as giving you the option to own or lease the technology.

With more than 1,200 systems installed in Albany County and a Master Dealer title - there are less than 25 SunPower(R) Master Dealers in the country - you can rest assured that we know solar panel installation, maintenance, and function, inside and out.

Let the solar experts install your New Albany solar panels!

Our solar specialists are eager to connect with you with either an in-person visit to your home or virtually from the convenience of your home!

As one of only five Platinum Installers in New York with over 4,352 solar installations, New York State Solar Farm is your best choice for clean, dependable energy. We'll guide you through the benefits of solar, show you how much you can save on energy bills, and provide a customized solar design that perfectly fits your home and needs.

As a homeowner or business owner in Berne, you may be planning on switching to solar power and wondering about the best solar companies in your city. Solar could be a fantastic choice since it has many perks. While solar power is a large investment, you'll be able to make that money back and then some, all while doing your part for the environment. In fact, you could be looking at saving about \$20,000 over 20 years.

This map shows the footprint of the 4.25-megawatt solar facility proposed by TJA Energy at 57 Canaday Hill Road.

BERNE -- After tabling a project in 2020 because of a then-recently adopted local solar law, TJA Energy is

Berne solar energy companies

back in Berne with a proposal for a 4.25 megawatt solar facility at 57 Canaday Hill Road.

This time, the company benefits from a solar law that the GOP-backed town board adopted in 2022, that overrode the earlier law, passed in 2019 when Democrats still had control of the board.
