Best 48V Lithium Golf Cart Battery: Ocell LiFePO4 Battery

5 Best Lithium Golf Cart Batteries LiFePO4 Battery 12V 100Ah Lithium Battery (Best Overall) Enduro Power 12V Lithium Battery (Best Premium Battery) FlyPower LiFePO4 Lithium Battery (Best Budget Option) ExpertPower...

If you own an electric golf cart, you know the battery life is not going to last for the length of the cart. Electric carts are great for the environment; they are clean to run and generally quite easy to fix.

Here are some great choices for the best golf cart batteries across several different categories. There is sure to be one on our list that will do the trick for your golf cart.

Trojan Golf Cart batteries are, without a doubt, the leader when it comes to golf cart batteries. These are not going to be the cheapest golf cart batteries, but they will have some of the highest capacity and performance.

These Trojan T-105 are deep cycle flooded lead acid batteries that will arrive on a pallet in a pack of six. This is enough to power your golf cart completely. Some of the things that people like the most about the Trojan battery is that it is virtually maintenance free.

Although you will have to check on the batteries from time to time, add water, and clean the terminals, the Trojan just seem to function and hold up better than other battery options on the market.

Best 6 Volt Golf Cart Batteries

If you are very particular about your golf cart batteries, then you may enjoy the performance of these US Battery 6 Volt Batteries. Although these are not going to be the cheapest batteries on the market, they will offer some impressive power and capacity benefits.

The US Battery 6 volt battery is constructed of very durable and heavy duty materials. This is a case that is going to outlast the battery itself. If you live in a climate where the battery tends to have trouble with corrosion, the US Battery may be the one that you want to go with.

If you remember, our top choice for a golf cart battery was the Trojan, and it had 225 Amp Hours. The US Battery has 232 Amp Hours and does beat out almost all of the competition.

The US Batteries are going to charge faster than other batteries, and they are going to hold their charge longer.
