Champion 9,375W/7,500W Generator with Remote Start and Wheel Kit

Generac 7043 Guardian Generator

There are a lot of solid reasons to have an inverter generator. Without power, you are cut off from just about everything, and while that may feel like a great idea at times, it can also be a pretty scary and dangerous proposition. Whether you're looking to power your camp, RV or cabin or you want a backup plan should the power grid go down from a storm or other event, having your own power supply can be a lifesaver. At the very least, a portable power station

But generators are an investment, so you'll want to do your research ahead of time. Not sure which one to get? We tested some of the best inverter generators for 2023.

Best for RVs: Champion 9,375W/7,500W Generator with Remote Start and Wheel Kit

Best Large: Generac 7043 Guardian

Best Portable: Yamaha EF2200iS Inverter Generator

Best Quiet: Honda EU3000is Portable Generator

We've tried several different solar generators

and the Jackery is far and away the best we've used, earning it our top pick. The unit is completely silent and self-reliant, making it as great a choice for off-the-grid life as it is for camping or outdoor adventures. The solar panels are tough and lightweight, and do a great job charging the unit quickly.

The base unit has a 2160Wh capacity and comes with a single SolarSaga solar panel. The unit is good for 200 watts and has three 2200W AC outlets. The single panel charges the unit in a few hours, and you can opt for more solar panels for faster and continuous charging.
