Bloemfontein peak shaving

Men's shaving treatments are professional grooming services where a barber uses specialized techniques, products, and tools for a smoother, more luxurious shave.

On top of having your shave performed with a professional's skill and precision, you'll enjoy extras like exfoliation, high-quality shaving creams or oils, and hot towel applications.

The benefits include a closer shave, reduced skin irritation or ingrown hairs, relaxation, and improved skin health.

Generally, men's shaving treatments are perfectly fine for all skin types. Your barber may adjust the treatment if you have sensitive skin.

That depends on your hair growth, but for most individuals, a treatment every 2 to 4 weeks is exactly what they need.

Men's shaving treatments in Bloemfontein tend to cost between ZAR 180 and ZAR 320.

The Chop Shop Salon for Men is the Authority in Men's Grooming. We cater to men who are looking for an elevated barbershop experience.
