

Bulgaria energy storage for resilience

Following the unprecedented crisis caused by the COVID-19 pandemic, Bulgaria's recovery and resilience plan has responded to the urgent need to foster a strong recovery, while making Bulgaria's economy and society more resilient and future ready. In response to the energy market disruption caused by Russia's invasion of Ukraine, the Commission launched the REPowerEU Plan. The Recovery and Resilience Facility is at the heart of its implementation and its funding. Under REPowerEU, EU countries are updating their recovery and resilience plans with new measures to save energy and diversify the EU's energy supplies.

Focusing on green technologies and capacities - sustainable mobility, energy efficiency and renewables, climate change adaptation; circular economy; and biodiversity.

Policies for the next generation

Improving access to and the quality of general, vocational, and higher education; focusing on digital education, early childhood education and care; supporting youth employment.

Smart, sustainable, inclusive growth

promoting entrepreneurship, competitiveness, industrialisation; improving the business environment; fostering research, development and innovation, supporting small- and medium-sized businesses.

Promoting the roll-out of very high-capacity networks, the digitalisation of public services, government processes, and businesses, in particular SMEs; developing basic and advanced digital skills; supporting digital-related R& D and the deployment of advanced technologies.

Social and territorial cohesion

Improving social and territorial infrastructure and services, including social protection and welfare systems, the inclusion of disadvantaged groups; supporting employment and skills development; creating high-quality, stable jobs.

Health and economic, social and institutional resilience

Improving the resilience, accessibility and quality of health and long-term care, including measures to advance their digitalisation; increasing the effectiveness of public administration systems.

The map exclusively serves information purposes and is not an exhaustive database of projects supported by the Recovery and Resilience Facility. It does not reflect the distribution of the projects funded by the Recovery

Bulgaria energy storage for resilience

and Resilience Facility across the European Union, nor across different geographical areas or sectors within EU Member States. The RRF funding amounts shown for measures are based on the initial cost estimates included in the recovery and resilience plans.
