

Canberra microgrid applications

Canberra microgrid applications

The Regional Microgrids Program (the Program) seeks to support the development and deployment of renewable energy microgrids across regional Australia that contribute to the Program Outcomes.

ARENA has allocated funding across two Streams under the Program, and each Stream has its own Outcomes.

Regional Australia Microgrid Pilots (Stream A)

The aim of Stream A is to fund Projects that contribute to the following Outcomes:

The aim of Stream B is to fund Projects that contribute to the following Outcomes:

The Program Guidelines detail the process we will use to fund projects under the Program. Funding is available until the Final Submission Date, or until funds are exhausted. The expected grant size under each Stream can be found under item 1.16 of the Program Guidelines, and Applicants seeking grant amounts outside the expected ranges will need to demonstrate exemplary merit with very broad industry benefit.

Key dates for the Program are outlined below. For more details, refer to the Program Guidelines.

The dates represent the current timetable for the Program. ARENA retains the right to amend proposed timelines and stages of the Program at its discretion.

Applicants submitting an expression of interest are required to submit a project plan (maximum 20 pages) and complete the project budget template. Please see the Program Guidelines for further information.

Note: Please ensure you have spoken with an ARENA representative before submitting your Expression of Interest.

Applicants who are successful at the EOI stage will be invited to submit a Full Application.

Refer to the Program Guidelines for the full list of required attachments that must be included with your application.
