

Car charging station franchise

Car charging station franchise

EV Express is offering a number of franchise exclusive territories in cities and states in the United States. Our EV Express® Franchise offers you an opportunity to own your own Electric Vehicles and EV fast charging business, making money while helping the environment. Below is a summary of the value proposition of the EV Express® Franchise Business

EV Express, Inc. 1159 Sonoma Court, Suite 345 Sunnyvale, CA 94086, USA

Electric Vehicle (EV) charging stations play an important role in the development and increased usage of electrically powered vehicles. Since the popularization of EVs is on the rise, there is a growing interest in the availability of quick and effective charging services. The business involved in establishing an EV charging station franchise is a rich business opportunity because of the shift towards a greener economy and the availability of charging stations to support the increasing fleet of electric vehicles. Let's explore and understand the entire franchise model in detail.

Before we understand the franchise model and costs, it's essential to understand the types of EV charging stations available:

Description: Connected to the standard 120-volt household outlets on the wall.

Use Case: This is used where the vehicle is parked overnight to allow the charging of batteries in residential areas.

Charging Speed: Every hour of charging improves the battery range by 2 to 5 miles.

Cost: Low cost (typically under \$1,000), but slow for commercial application.

Description: It has a power supply of 240 volts AC.

Use Case: A great product for public and commercial applications, especially for retail stores, offices, and apartments.

Charging Speed: Charges at a rate of about 10-60 miles of range per hour.

Cost: Costs range between 700 to \$2000 per product unit, based on the product features.
