

## Consumer electronics products list

From transparent TVs and audiophile soundbars, to facial recognition security cameras and slick new computers, these are the products that made our "Best of CES 2024" list

The consumer electronics show was virtual this year, and the WIRED Gear crew watched all the Zooms to bring you this list of nearly 80 products, trends, musings, and photos.

From true wireless earbuds to smart home appliances to tech products for parents, here are the coolest gadgets available right now. In addition to great personal upgrades, all these products double as foolproof tech gifts for friends and family members.

From workout headphones to an iPhone case with a physical keyboard, here's everything announced at the big tech trade show that you can actually order--or preorder--today. Photograph: Alex ...

Our definitive list of the best products range from our namesake computing devices, like PCs, tablets, and phones, down to small wearables and up to gargantuan TVs, plus all the software, apps...

WELCOME TO OUR CES 2021 liveblog archive! The WIRED crew wasn't in Las Vegas this year; the show was moved online due to the ongoing Covid-19 pandemic. But even a global health emergency can't stop the march of consumer technology. There were still plenty of gadgets, apps, electric vehicles, smart-home appliances, brain-training headsets, and sex tech to tell you about. These are all our musings from our team during the show, including photos, written dispatches, trends, and, of course, more than a few lulz.
