

Copenhagen battery recycling

Copenhagen battery recycling

The City of Copenhagen provides waste bins and collects waste from your property.

Visit the homepage affald.kk.dk for more information on sorting waste (Danish)

Depending on where you live waste bins and recycling bins can normally be found in your courtyard or basement.

If you are unable to find the right bin for your recyclable waste you can contact Nem Affaldservice or look for the nearest recycling centre or local collection point.

Check out the map for waste bins near you (Danish)

Bio bags, food bin and adapters for trash racks are also available at your nearest recycling centre and at most libraries. You can find an overview of places, where you can pick up bio bags, food bin and adapters on our website affald.kk.dk.

If you need more information on garbage disposal at your residence you can use "Nem Affaldsservice". Here you can check collection dates, order optional or extra bins, report a problem etc.

Type in your address to start using the service.

Go to Nem Affaldsservice (Danish)

Examples of recyclable cardboard:

Used pizza boxes should be disposed as "residual waste",

Juice cartons, milk cartons (tetrapak) and alike should be disposed as "Plastic, food and beverage cartons waste".
