Custom container homes for sale

Experience a new home like no other with one of our custom container homes. Built ...

We are a family owned and operated container home builder. Using a combination of 20- and 40-foot containers, we create unique, functional, and modern structures.

We are a family owned and operated container home builder. Using a combination of 20- and 40-foot containers, we create unique, functional, and modern container structures.

We offer many standard container models that include more than 80 customization options, including add-ons such as rooftop decks, exterior cladding, garage doors, and more! We also offer container pools and saunas. Standard models can be crafted and delivered in 6-16 weeks. We also offer custom container builds.

Inspired by the home we built on HGTV's Tiny House, Big Living, the Kennedy is a 40FT container home. It includes a bathroom, bedroom, living space, and a kitchen.

We offer both a 20ft and 40ft option for our hunting container cabins. These models are built for the rugged outdoors and offer exceptional security.

Using multiple containers, we have a variety of container homes available.

Our open-concept 20FT container office is a great way to add an office to your home, property, or commercial construction site.

Backcountry Containers crafts custom container homes specific to your unique needs and location.

User-friendly equipment and interface, including a pool heater, a pool pump, filter, skimmer, and main drain, makes for the ultimate plug-n-play experience.

Experience ultimate relaxation and recovery in our Sauna and Cold Plunge/Hot Tub/Pool uniquely built in a 20ft shipping container.

We offer both standard and custom container structures. Our standard container models are inspired by our most popular custom builds featured on shows such as HGTV's "Tiny House Big Living" and our own DIY Network TV show "Containables". Whether it's for your backyard or a mountainside location, all Backcountry Container designs are built to maximize small footprints and help connect you to the outdoors. With large workshops in both Texas and Wisconsin, we can deliver our container creations anywhere in the country, ensuring compliance with local building regulations and zoning laws.
