Dakota Lithium 36V 60Ah Deep Cycle LiFePO4 Single Battery

The 36v DL 60Ah single battery is optimal for 36v trolling motors, or boats & vehicles where weight is at a premium. Ideal for deep cycle applications in marine environments where you need lots of power for a long time.

World beating, best in class, eleven year manufacturer defect warranty.

60 ampere hours (Ah). Dakota Lithium batteries provide consistent power for all 60 amp hours. DL LiFePO4 batteries have a flat voltage curve, which means they have a steady power output as the battery discharges. The power output will not dramatically drop like similar sized SLA batteries. You get all the juice down to the last drop.

13"L x 6.7"W x 8.7"H (331mm x 172mm x 221mm). Group 31 Battery

44 lbs (20 Kg). That's 75% lighter than a lead acid battery and 25% lighter than Dakota Lithium original 36V 63Ah battery.

Up to 80% capacity for ~ 3,000-5,000 cycles in recommended conditions. The typical SLA has 500 cycles. Dakota Lithium batteries last so long that the price per use is a fraction of traditional batteries.

Ideal for rugged & harsh environments. Much better than SLA or other lithium's. -20°F min, +120°F max optimal operating temps (battery performs well down to -20°F). Avoid charging below 32°F.

60 A max continuous, 100 A max pulse 10 second pulse. The flat discharge voltage curve provides a 75% bigger capacity than a comparable 63Ah SLA battery.

31.5 A max, 42 V max recommended.
