

Domestic electric storage batteries

As the energy market continues to rapidly change and develop, the interest in solar energy storage or solar batteries, continues to peak among many Aussies. But as more solar brands and models come into play, finding the right energy storage solution for your home can feel a little daunting, especially while trying to grapple the ins and outs of solar battery efficiency and capacity.

That's why we've compiled a list of the best home solar battery systems available in Australia right now. Comparing factors such as off-grid capabilities, size and capacity, we run you through some of the key brands and solar battery retailers you should have in mind when thinking of a solar battery system for your home.

It's important to note however, that this advice is only general in nature. Before making any purchase decisions, it's best to get in contact with a licenced solar installer to discuss which options would be best suited to your home and circumstances.

There's no doubt that if you've been on the hunt for a solar battery for a while, you'll be familiar with the Tesla Powerwall 2. Arguably one of the best deep cycle batteries for solar on the market, this model is well known for its high efficiency, capacity and its ability to be seamlessly added to an existing or new system. Despite carrying a higher price tag than most models on the market, this unit still stands as one of the best for energy storage, especially thanks to its very high weather rating, allowing it to withstand extreme temperatures in outdoor settings. The Tesla Powerwall 2 also comes with a warranty of 10 years.

Price Estimate: \$13,000-\$15,000*

*This estimate does not factor in installation costs

Sizes Available: 13.5kWh

What's good about this battery:

Price Estimate: \$12,000-\$13,000*

Some energy providers will offer specific electricity plans to customers with solar panels that come with a higher feed-in tariff than other market offers. Below are some of the solar energy plans available in New South Wales, Victoria, Queensland and South Australia.

*NSW, QLD and SA: Price is GST inclusive and is: The estimated lowest possible price a representative customer would be charged in a year for this plan, assuming all conditions of discounts offered (if any) have been met, based on the AERu2019s model annual usage in the distribution region as stated at the top of each

table.

~VIC: Price is GST inclusive and is: The estimated lowest possible price a customer would be charged in a year for this plan, using the Victorian Governmentu2019s annual reference consumption for domestic customers in your distribution region as stated at the top of each table and assuming all conditions of discounts offered (if any) have been met.
