

Electric vehicle charging infrastructure algiers

Welcome to our webpage dedicated to electric vehicle charging stations in Algiers, Algeria. As the capital city of Algeria, Algiers offers a unique blend of historical charm and modernity, making it an ideal destination for electric vehicle owners. With an increasing focus on sustainable transportation, Algiers boasts a growing network of charging stations, ensuring that EV owners can explore the city and its surroundings with ease. Join us as we guide you through the various charging options available in this vibrant and eco-friendly city.

PlugShare uses a color-coded system to convey charging station information:

No pins on the map? Unfortunately, Plugshare users haven't reported any charging stations.

To find out about charging costs at a specific location, just click on the pin icon on the map. You'll see a cost field that provides pricing information contributed by previous users of the charger. Additionally, some chargers may have pricing details mentioned in their descriptions. Keep in mind that for certain locations, pricing information may not be accessible.

To pinpoint Tesla-compatible charging stations, click on a specific station pin on the map. Examine the station details for information on available connectors; Tesla-compatible stations will specify Tesla-specific connectors. Don't forget to check user reviews and comments for additional insights.

The score attributed to a charging station represents user experiences, graded on a scale from 1 to 10, with 10 indicating the highest satisfaction. If users report negative experiences, the station's score decreases, while positive reports elevate it. Scores remain unchanged by neutral comments or check-ins. For a more comprehensive understanding of the factors influencing each score, we recommend reviewing location comments. You can easily find PlugScores via the Station Summary icon on the map.

Potential EV Day Trips from Algiers, Algeria Algiers, the capital city of Algeria, is a hub of history and culture, and it also serves as a starting point for some exciting electric vehicle journeys. One popular driving destination from Algiers is the ancient Roman city of Tipasa, located about 70 km to the west. This UNESCO World Heritage site, with its picturesque ruins overlooking the Mediterranean Sea, is easily accessible with an electric vehicle, given the availability of charging stations in major cities along the route. The journey offers stunning coastal views and the chance to explore the unique blend of Punic, Roman, and Byzantine history at Tipasa.

Another fascinating destination is the city of Setif, about 300 km east of Algiers. Known for its Roman ruins

and the Setif massacre museum, the city offers a deep dive into Algeria's historical past. Although the distance might be a challenge for some electric vehicles, the journey is feasible with a bit of planning, considering the growing number of charging stations in Algeria. The route to Setif is scenic, passing through the Kabylie region, known for its beautiful mountains and traditional Berber villages.

Note these are suggestions only – please ensure you check the charging infrastructure prior to your journey.

Mohamed Arkab, the Minister of Energy and Mines, has recently announced the commencement of operations for the first hundred electric vehicle (EV) charging stations, located in the Sablettes promenade of Algiers.

Together with Mourad Adjal, CEO of Sonelgaz (the National Gas and Electricity Company), the minister also revealed plans to bring an additional 300 stations into service before the end of the current year, with a target to have 1,000 stations up and running by the end of 2024.
