

Electric vehicle incentives ottawa

Electric vehicle incentives ottawa

There are two levels of incentives:

We are making it more affordable to switch to zero-emission vehicles (ZEVs) and reduce your greenhouse gas emissions through incentives for the purchase of ZEVs.

Up to \$5,000 is available at the point of sale to Canadian individuals and businesses for the purchase or lease of light-duty ZEVs. Most personal vehicles, like cars, SUVs, and light pick-up trucks fall into the light-duty vehicle category.

Vehicles eligible for iZEV

Up to \$200,000 is available at the point-of-sale to Canadian businesses and to organizations for the purchase or lease of medium- and heavy-duty ZEVs. Trucks, cargo vans, shuttles, and other commercial vehicles fall into the medium- and heavy-duty vehicle category.

Vehicles eligible for iMHZEV

Canadian organizations and businesses can benefit from an enhanced first-year capital cost allowance on the purchase of an eligible ZEV. However, this option is not available in combination with the iZEV incentives. Learn more about whether this option is the right choice for your business.

Some provinces and territories offer incentives and rebates to support:

These could be combined with federal incentives. Check applicable provincial or territorial websites for up-to-date information on the incentives available in your region.

These provinces currently offer ZEV-related incentives:

Enroll your dealership in the iZEV Program to offer your customers incentives for the purchase of ZEVs, learn how to apply the incentive at the point of sale or lease, and download the latest iZEV forms required to submit a request for reimbursement.

Enroll your dealership in the iMHZEV Program to offer your customers incentives for the purchase of ZEVs, learn how to apply the incentive at the point of sale or lease, and download the latest iMHZEV forms required to submit a request for reimbursement.
