

Electric vehicle safety kuala lumpur

Get ready for EVM Asia 2024, the premier exhibition for EV and hybrid vehicles, mobility, manufacturing tech, and auto parts! Join us at MITEC, Kuala Lumpur from November 19 – 21 for its thrilling 4th edition, themed "The Future of Sustainable Mobility." It has reaffirmed its position as the leading B2B event in the region on E-Mobility and its ecosystem.

EVM ASIA 2024 brings together the entire e-mobility ecosystem, including partners such as Malaysia Automotive, Robotics, and IoT Institute (MARii), Zero Emission Vehicle Association (ZEVA), Zero Emission Vehicle Association Selangor, and the Federal Territory Engineering and Motor Parts Traders’ Association (EMPTA).Download our brochure to learn more.

Welcome to EVM ASIA 2024! Once again, MARii is pleased to be the Strategic Partner of this pivotal event from 19th to 21st November 2024 at the Malaysia International Trade and Exhibition Centre in Kuala Lumpur. This year's theme, “Driving Sustainable Mobility,” underscores our unwavering commitment to advancing electric vehicle (EV) adoption and fostering automotive innovation. Over the next three days, we will delve into groundbreaking technologies and forward-thinking solutions that will shape the future of mobility in Asia.

EVM Asia 2024 is your gateway to the latest innovations in electric and hybrid vehicles, featuring over 200 exhibiting brands and more than 15 seminar sessions led by industry experts. Network with 21,000+ trade attendees and decision makers to expand your professional connections and stay ahead in this rapidly evolving sector. Be at the forefront of the electric and hybrid vehicle movement in the region this 19 – 21 November 2024 at the Malaysia International Trade and Exhibition Centre (MITEC) Kuala Lumpur.

KUALA LUMPUR, Dec 13 -- Sirim Bhd has launched a complete ecosystem for electric vehicles (EV) in Malaysia with the establishment of the National Rechargeable Battery Testing Centre (NRBTC), which will significantly expand the EV value chains by stimulating both the supply and demand.

This complete ecosystem would consist of pattern approvals for EV charging systems, battery testing and certification for EV components and systems.

In his speech at the launch ceremony, Minister of Investment, Trade and Industry Tengku Datuk Seri Zafrul

Tengku Abdul Aziz said the launch marked how Sirim has built the ecosystem required for Malaysia to become a key player in the global EV market.

"Sirim has constantly been a key contributor to the development of our industries, particularly in the fields of research, technology and quality.

"It has proven to be a valuable partner in each of the five priority sectors by helping to uplift the capabilities of industry players," he said.

The launch of the complete ecosystems for EV industry in Malaysia was organised in conjunction with Majlis Sirim Industri 2023.
