Scientific Technical Union of Mechanical Engineering "Industry-4.0"

Our business car rental program is fully tailored to your needs and relieves you of having to manage your fleet. Choose one of the Avant Car business package or contact us for an individual consultation.

Through its portfolio of services, Avant car promotes electric mobility. We invest our pioneering experience in raising public awareness and making the experience of electric mobility possible.

Partnership for your business success

We offer flexible solutions for your needs at every moment of your business operations.

Rely on us at all times. The right partner solves every challenge in any situation.

Welcome to the world of mobility

Avant car is a regional leader in development of e-mobility with more than 15 million kilometers of experience with 100% electric vehicles. Through a strong sense of responsibility we made it our mission to accelerate the transition towards clean and affordable mobility. We love sharing our experiences with the community by creating and offering tailor-made solutions of mobility-as-a-service (car rental, business rental and electric car sharing).
