

Electricity regulations botswana

Electricity is regulated through the BERA Act of 2016 in conjunction with the Electricity Supply Act and the Botswana Power Corporation Act. And covers generation, transmission, distribution and sale of electricity.

Enhancing Botswana's economy by regulating the energy sector. We provide an efficient energy regulatory framework for Electricity, Gas, Coal, Petroleum products, solar and all forms of renewable energy. We ensure that service standards are set and protect customers and consumers from monopoly power of energy.

These Regulations shall apply to all undertakings for the generation or supply of electrical energy, other than such undertakings as are not required to be licensed in accordance with the provisions of section 3(2) of the Act.

These Regulations shall apply to all undertakers and to all works of and all supplies of energy given by such undertakers whether brought into use or commenced before or after the date of publication of these
