

Electricity regulations kosovo

ERO is responsible for establishment and enforcement of a regulatory framework for the energy sector (electricity, district heating and natural gas) in Kosovo, ensuring non-discrimination, effective competition, and the efficient functioning of energy market.

to security of electricity supply, regularity, quality and price of supplies, energy efficiency, energy from renewable sources, and environmental and climate protection which is OFFICIAL GAZETTE OF THE REPUBLIC OF KOSOVA / No. 26 / 21 july 2016, PRISTINA

The Energy Regulator is an independent institution which exercises the competences for regulation of the energy sector, as part of the institutions of the Republic of Kosovo and is legally and functionally separated from any other natural or legal person.

Until 2020, Kosovo promoted renewable energy in the electricity sector using a feed-in tariff, which was suspended by the ERO due to the cost-efficiency of competitive support mechanisms. Kosovo is now developing a legal framework to introduce more effective and transparent schemes, like auctions, to advance renewable energy growth.

Based on Article 65 (1) of the Constitution of Republic of Kosovo, Approves: LAW ON ENERGY CHAPTER I GENERAL PROVISIONS Article 1 Purpose 1. This law establishes the general principles and rules that will govern activities in the energy sector in the Republic of Kosovo, with the aim to achieve a safe, secure, reliable, and high-

secretariat(at)erranet

The ERO is also responsible for creating the regulatory framework, which ensures transparent and non-discriminatory operation of the energy market based on the principles of the free market. It implements transparent and open criteria for granting licenses to energy enterprises including the authority to grant, modify, suspend, transfer, withdraw, supervise, and control whether energy enterprises comply with their received licenses and obligations.

For more information on the ERO's role in renewable energy development access the A-Z Guide.

Ministry of Environment, Spatial Planning and Infrastructure

"Zahir Pajaziti" Square, no. 3610000 Pristina,

The Energy Regulatory Office (ERO) was established in June 2004, with the promulgation by the Assembly of Kosovo of the Law on Energy, the Law on Electricity and the Law on Energy Regulator.

The Energy Regulatory Office is an independent body, which has the duty to regulate activities in the energy sector in Kosovo, including electricity, district heating and gas, in accordance with the obligations arising from the Energy Community Treaty (This treaty was signed by the European Union and nine partners from Southeast Europe in Athens in October 2005 to establish the legal framework for an integrated energy market).
