

Electricity safety zambia

This Act may be cited as the Electricity Act.

In this Act, unless the context otherwise requires--

"ancillary service" means a service comprising reactive power, black start, operating reserve and a service required to control power system stability;

"base tariff" means a reference to a retail tariff determined by the Energy Regulation Board at the beginning of the multi-year tariff period;

"base year" means the latest historical full financial year prior to a retail tariff application;

"bilateral tariff" means the tariff at which electricity is sold under a power purchase agreement or a power supply agreement, excluding a retail tariff;

"black start" means the process of restoring a generating station or part of the electricity network following a total system collapse without the use of an external transmission system;

"Board" means the Board of the Energy Regulation Board established under the Energy Regulation Act, 2019;

"charge" includes the price, fee, rate, surcharge, levy, fine, penalty, deposit, connection charge or fee, use of system charge or any other charge made for the provision of a service or product that a licensee provides in the course of carrying out the licensed activity;

"chief" has the meaning assigned to the word in the Constitution;

"common carrier" means a transmission or distribution line declared as a common carrier by the Minister under section 15;

"consumer" means a person to whom electricity is sold under a contract of supply or a person who has applied and paid for the supply of electricity;
