

Energy independence andorra

Andorra has become a popular tourist destination visited by approximately 8 million people each year drawn by the winter sports, summer climate, and duty-free shopping. Andorra has also become a wealthy international commercial center because of its mature banking sector and low taxes. As part of its effort to modernize its economy, Andorra has opened to foreign investment, and engaged in other reforms, such as advancing tax initiatives aimed at supporting a broader infrastructure. Although not a member of the EU, Andorra enjoys a special relationship with the bloc that is governed by various customs and cooperation agreements and uses the euro as its national currency.
