

Energy storage battery models 45 kWh

Energy storage battery models 45 kWh

,?,:?,,?,,?...

Meet the SolaX Xpower Home Battery - the intelligent, reliable, and affordable energy storage solution customized exactly for you.

Stay powered during outages: Uninterrupted switchovers during outages to keep your home and appliances running smoothly.

Efficiency and savings: Maximize savings with Time of Use features, and sell solar electricity back to the grid to earn credits with net metering.

The battery system comes in many different sizes and configurations options. When you purchase your battery system, we will reach out to schedule your dedicated session with our technical experts, who will make sure your system is fit to your specific needs. This ensures personalized service and scheduling at your convenience. Our team of energy experts are ready to help you tackle any solar, battery, and backup configuration you can imagine.

Secure Your Consultation

IMPORTANT: Emporia will not ship your order until we've spoken to you and ensured that the battery solution will operate effectively for your selected application. We do not accept returns. Additional Shipping Charges may apply. Therefore all orders can be adjusted anytime prior to fulfillment without penalty. We're excited to work with you.

Slash Your Energy Bills: Use stored energy during peak hours when electricity rates are highest.

Power, Uninterrupted: Keep your home powered during outages and emergencies, giving you peace of mind no matter the weather.

Eco-Friendly Energy: Reduce your carbon footprint by maximizing the use of renewable energy sources like solar.

Once you purchase your battery system, we'll reach out to schedule a free virtual consultation with an Emporia Energy Expert who will analyze your energy usage and recommend the best battery system configuration for your home and budget. Our battery is modular and completely customizable - no need to install anything but the perfectly sized system.

Energy storage battery models 45 kWh

From there, you'll receive a customized project proposal outlining costs, savings, potential rebates, and the installation process.
