GoKWh 51.2V 320Ah LiFePO4 Stack-mounted battery storage built with genuine LiFePO4 prismatic cells improved thermal stability. Equipped with communication interface and LCD screen, the module status can be monitored at any time. Perfectly matched with mainstream inverter brands, the rack mode is easy to install and place, providing the most convenient solution for your home energy storage.

GoKWh 51.2V 280Ah LiFePO4 Rack-mounted Home Battery Storage User Manuel

The solution is simply:– Growatt SPH inverter– energy meter (measuring the power flow to/from the Grid– GoKWh battery. The larger the better!

GoKWh's StoryFactory TourTechnological ProcessProduct Presentation

Safe, long-lasting, high-performing energy storage is key to a successful transition to clean energy. That's why we're here -- and why we innovate non-stop.

Hithium, a leading global provider of integrated energy storage products and solutions announces the signing of a Master Supply Agreement (MSA) with a full integrated battery energy storage system (BESS) provider and subsidiary of Hydro-Qu?bec, EVLO Energy Storage Inc (EVLO). As part of the agreement, Hithium will provide EVLO with 5MWh DC blocks made of 314Ah lithium iron phosphate (LFP) battery cells, together with up to 25 years warranty and performance guarantee packages. The 5MWh DC blocks will be integrated into EVLO SYNERGY, EVLO's next-generation battery energy storage system (BESS).

At Solar & Storage Live KSA, Hithium Energy Storage Technology Co., Ltd. (Hithium), a leading global energy storage solutions provider, and Engineer Nabilah AlTunisi, founder-owner of Eng. Nabilah AlTunisi company, MANAT, announced proudly the formation of their joint venture company, Hithium MANAT. This exciting collaboration aims to leverage Hithium's expertise in energy storage and Hithium MANAT's local insight to better serve the Saudi Arabia market. The joint venture also plans to establish BESS (Battery Energy Storage System) manufacturing facilities in Saudi Arabia, targeting an annual production capacity of 5GWh.

Hithium, a leading global provider of integrated energy storage products and solutions, launched the HiTHIUM ?Block 6.25MWh Energy Storage System (6.25MWh BESS) in Anaheim, California, debut at RE+

Energy storage battery pack 320 kWh

2024, with global deliveries set to commence in Q2 2025. The system is designed to provide an optimal platform for 4 hours long-duration energy storage applications.

Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55MWh. This solar plus storage project was realized completely by EPC company Solarpro, in Razlog, Southwestern Bulgaria, where the project is located.
