

Energy storage policy updates somaliland

The Energy Commission is required by law to regulate and manage the development and utilization of energy resources in Somaliland as well as to provide the legal, regulatory and supervisory framework for all providers of energy in the country, specifically by granting licenses for the Generation, Distribution, Transmission and sales of electricity.

Minister of Energy & Minerals

Dear Guests, Media RepresentativesAsalam-u-alikumwaramatullahwabarakatahu.

The Ministry of Energy and Minerals is responsible for energy (both renewable and non-renewable) and extractives including minerals and hydrocarbons.

The Ministry is implementing a Power Master Plan for the entire country and in particular the capital city, Hargeisa. The objective of the Project which is funded by the World Bank is to produce credible power master plan for Somaliland to guide the introduction and establishment of modern cost-effective reliable electricity supply systems for the country over a 20-year planning period.

This will only take a second!
