

# Energy storage policy washington d c

Energy storage policy washington d c

Energy storage is integral to electrical supply, transmission, and distribution systems. The topic is gaining attention as stakeholders recognize the revolution storage solutions can bring to the clean energy industry. Join us next year as we unite state and federal regulators, policymakers, storage industry members, utility decision makers, and power sector stakeholders in the most critical energy storage discussions.

If you want to attend ACP's Energy Storage Policy Forum next year, please fill out this form.

The Energy Storage Policy Forum features speakers at the administration, federal, and state level to discuss what is ahead for policy around energy storage. From discussion of state regulatory and legislative policy to federal infrastructure, all aspects of policy and advocacy are examined for the impact on energy storage in the year ahead.

Join us in Washington, DC, February 16, 2022.

Featuring nationally recognized policymakers and energy thought-leaders, ESA's Annual Energy Storage Policy Forum convenes a select audience of stakeholders from across the energy ecosystem including state and federal regulators, policymakers, storage industry members, utility decision makers, and power sector stakeholders.

Past events have included speakers such as National Climate Advisor Gina McCarthy, FERC Chairman Richard Glick, Senator Susan Collins, Representative Earl Blumenauer, Connecticut PURA Chairman Marissa Gillett, and many more.
