

Energy storage services

Energy storage services

Fluence is enabling the global clean energy transition with market-leading energy storage products and services, and digital applications for renewables and storage.

Fluence offers an integrated ecosystem of products, services, and digital applications across a range of energy storage and renewable use cases.

Mosaic Intelligent Bidding Software

Nispera Asset Performance Management Software

Our standardized Technology Stack makes it easier for you to rapidly and cost effectively deploy energy storage, and optimize storage and renewable assets.

Energy storage provides the agility and efficiency to keep pace with an evolving energy landscape.

Unlock the full potential of your network with energy storage.

Maximizing the lifetime value of your asset requires technicians with a comprehensive skill set across multiple technologies to ensure optimal performance and system reliability, all while upholding thorough health and safety standards.

Fluence delivers valuable insights and services built on over a decade of energy sector knowledge, working to help customers maximize their asset value and meet the unique commercial and operational requirements of energy storage projects.

Fluence performs all preventative and reactive maintenance. This level includes comprehensive performance guarantees, system testing, and equipment warranties.

Fluence trains your team to operate the energy storage system and perform preventative maintenance, with the option to include limited performance guarantees.

Fluence provides comprehensive training for your team to operate the system and perform preventative and reactive maintenance.
