Encharge 10T battery storage system with integrated Enphase Microinverters and BMU.

Includes: Three Encharge 3.36kWh base units (B10-A01-US00-1-3) and One Encharge 10T cover kit.

The Enphase 10T IQ battery is an advanced energy storage solution designed to enhance the efficiency and reliability of residential and commercial solar systems. With its cutting-edge technology and intelligent features, the Enphase 10T IQ battery offers a range of benefits for homeowners and businesses looking to optimize their energy usage.

One of the key features of the Enphase 10T IQ battery is its high storage capacity. With a total usable capacity of 10.1 kilowatt-hours (kWh), this lithium iron phosphate (LiFePO₄) battery can store a significant amount of energy. This ample storage capacity allows users to capture excess solar energy generated during the day and utilize it during peak demand periods or when sunlight is unavailable, reducing reliance on the grid and
