With up to date information

Anytime, any product, anywhere

Our new e-commerce platform is designed to make your shopping experience faster, easier, and more personalized. It's an additional way for you to browse, select, and purchase products whenever it's convenient for you--without replacing the personalized service from our sales representatives. Instead, it complements their support, giving you more options and flexibility.

In today's fast-paced world, having a clear and unified digital strategy that prioritizes customer needs and operational efficiency is more important than ever. In June 2024, we launched our new e-commerce platform in the US market for select customers, with plans to onboard additional Epiroc US customers throughout the rest of the year. The platform will expand to countries outside the US in 2025.
