First Solar produces high-quality advanced thin film CadTel PV modules.

First Solar utilizes an innovative thin film CadTel PV semiconductor that is advantaged against conventional silicon panels in many aspects.

From raw material sourcing and manufacturing through end-of-life module recycling, First Solar's approach to technology embodies sustainability and responsibility toward people and the planet.

Studies, reports, and technical documents to support your PV project.

First Solar is a leading American solar technology company and global provider of responsibly produced, eco-efficient solar modules advancing the fight against climate change.
