

Fogstar 24v 280ah battery

Fogstar 24v 280ah battery

Authenticated and Batch Tested Lithium-Ion Batteries. Find out more about our journey.

With a staggering 7,168Wh of capacity, this portable powerhouse can keep your van, caravan, boat, or other off-grid setup running for multiple days, ensuring you're always connected, no matter where your adventure takes you. Built with the very best Grade A EVE LF280K cells and backed by an industry-leading 10-year warranty for lasting performance and peace of mind. The Drift PRO is easy to manage with Bluetooth connectivity and accompanying Fogstar app, while Victron Plug-and-Play and RS485/CAN ports offer advanced integration options. Built-in heating and a robust metal case make it suitable for various environments, and its lightweight design with built-in handles allows for easy portability.

TECHNICAL SPECIFICATIONS
Nominal Capacity: 280Ah
Nominal Voltage: 24V
Recommended Charge Voltage: 28.8V
Max Continuous Discharge: 300A
Cycle Life: 8,000 cycles at 80% depth of discharge (DOD)
Charging Efficiency: Up to 98%
Dimensions: 280 x 698 x 205 mm
Weight: 60.6kg
Terminals: M10
Operating Temp: -20°C - 55°C
Maximum Inverter: Up to 3500W in size

SAFETY INSTRUCTIONS

Unit 21 Walkers Road, Manorside Industrial Estate, Moons Moat North, Redditch, Worcestershire, B98 9HE

The Fogstar Drift PRO 280Ah is a high-performance battery, perfect for 24V systems needing reliable power. With Bluetooth and a smart BMS, monitoring is simple and efficient. It comes with a 10-year warranty and IP67 protection, ensuring durability for van life and off-grid adventures.

Fogstar is a trusted name in the world of high-performance batteries, known for their innovative features and robust construction. The Drift PRO range includes state-of-the-art BMS and Bluetooth capabilities, making monitoring simple and efficient.

With a focus on durability, Fogstar offers a 10-year warranty and IP67 protection, providing peace of mind for customers. Their dedication to creating long-lasting, high-quality batteries makes them an ideal choice for van life and off-grid enthusiasts.

This campervan leisure battery is designed for those with a 24V system needing a high capacity. The Fogstar Drift PRO 280Ah LiFePO4 offers dependable power and excellent efficiency. Its robust design makes it ideal for long-term use, ensuring you have consistent power for all your needs on the road.

Fogstar 24v 280ah battery

Designed for 24V systems, this battery supports a maximum charging and discharging current of 250A. It enables fast energy input and significant power output, essential for users with substantial energy requirements. Operating within a temperature range of -20°C to 60°C for both charging and discharging, it guarantees dependable performance in various environmental conditions.

Designed for 24V systems, this battery supports setups up to 96V in series, allowing for larger capacities and power requirements.
