

Fronius 100 kw inverter datasheet

- 1) According to IEC 62109-1
- 2) Unrestricted voltage range
- 4) Direct in the sun is possible
- 5) At an ambient temperature of 50°C
- 6) AC-, DC-Overvoltage protection; Type 1+2: limp 5kA
- 7) An Ethernet star-configuration is used for communication with multiple inverters. Each individual inverter communicates independently with the network/Internet via its integrated data logger
- 8) Find more certifications at
- 9) At 230 V actual mains voltage; design recommendation (Umpp min): 600V

* $I_{sc\ pv} = I_{sc\ max} \geq I_{sc\ (STC)} \times 1,25$ according to e.g.: IEC 60364-7-712, NEC 2020, AS/NZS 5033:2021.

The country currently selected is Middle East. Would you like to stay on this page or do you want to switch to the local website?

1.1 All deliveries and other services effected by ourselves, and all payments made to us, shall be exclusively governed by these Terms of Delivery and Payment. Insofar as applicable provisions may be found to be missing therefrom, the General Terms of Delivery of the Austrian Electrical and Electronic Industries shall apply in a subsidiary manner; in all other regards, Austrian laws and regulations shall apply. If any business terms of the Ordering Party's are at variance with these General Terms of Delivery and Payment, we shall only be bound by such divergent terms if we have expressly recognised the same by letter or by telefax.

1.2 In taking delivery of the goods and/or service, the Ordering Party acknowledges the exclusive applicability of our Terms of Delivery and Payment.
