

Grenada electricity market trends

(IRENA, 2012) Electricity consumption in Grenada is dominated by the commercial sector, which accounts for 57 percent of consumed electricity, followed by the residential sector at 38%. Industrial consumption stands at 3 percent and street lighting at 2 percent.

The Government of Grenada has committed itself at the COP 21 (Paris), with the submission of the Nationally Determined Contributions. The main aims of Grenada's NDC are as follows: Reduce carbon dioxide (CO₂) emissions from the power sector by 40% by 2030. Reducing emissions from land transport 20% by 2025.

This document presents Grenada's Energy Report Card (ERC) for 2021. The ERC provides an overview of the energy sector performance in Grenada. The ERC also includes energy efficiency, technical assistance, workforce, training and capacity building information, subject to the availability of data.
