Unleash the power of cutting-edge solar technology and sustainable energy ...

HanwhaQcells Co., Ltd. is headquartered in Seoul, South Korea. Our headquarters for Technology & Innovation is located in the Solar Valley in Thalheim, Germany, where we develop our product portfolio "Engineered in Germany". Excellent scientists and engineers make continuous improvements to existing technologies in our in-house research center developing new innovative product generations. Our products are manufactured in our international facilities in China, Malaysia and South Korea. The products and services are sold via our worldwide sales network, spanning photovoltaic markets in Europe, North America, Asia, Australia, South America, Africa and the Middle East. To contact our local sales offices, please visit our local Qcells product brand websites.
