

Honda poweroad lithium battery life

Honda poweroad lithium battery life

Longevity. The first Poweroad that I used was the non-standard size, and the foam spacers held up even after long rides and hours on the saddle. My Honda's currently at over 30,000 kilometers on its odometer, and the battery's still running strong with one-click starts and strong amperage.

Lithium Iron Phosphate Battery for starting batteries with highest CCA in the market. With more than 10 years experience in R& D aspect, we have been test for all the batteires in the market and design the cells with the highest discharge current.

Choose POWEROAD Lithium Batteries and experience the ultimate in performance, reliability, and durability for your motorcycle. High-rate continuous discharge current; Extensive cycle life with more than 4x longer life than lead-acid battery; More than 2000 life cycles; Direct replacement in size for traditional lead-acid batteries

Key Benefits of POWEROAD Lithium-ion batteries: Higher starting power giving a more rapid start capability, resulting in easier start. Super fast charging rate through high current. Longer service life with more than 2000 full charge and discharge cycles; Approximately 60% lighter in weight. Built in LED indicator to test battery

Right battery - Right application - Great advice

This battery MUST be charged with an appropriate Lithium charger to prevent damaging the battery!

See the latest advance in battery technology with the POWEROAD YTX14-BS (PLFE-14).

POWEROAD has over 20 years of industry knowledge and experience and developed the OEM series of Lithium Motorcycle batteries, using the latest technology, Lithium-ion batteries are the lightest and most environmentally friendly options on the market. You can be assured that when you purchase a Poweroad battery you get a superior quality battery.

POWEROAD OEM family of 12V LiFePO4 Motorcycle batteries are made with premium quality and unmatched reliability also 60% lighter than regular lead-acid batteries. No maintenance required as they are completely sealed and they are very safe due to being leakproof and waterproof. Super fast charging and more than 2000 life cycles and very low self discharge are just some of the reasons this range of POWEROAD Lithium motorcycle batteries are extremely popular with motorcyclists around the world.

Honda poweroad lithium battery life

NOTE: Prior to first use on your motorcycle the battery must be charged on a Lithium charger.
